### Carrier- Objective

Dedicated Software Engineer with a solid academic background and practical project experience, motivated by passion for innovation and problem-solving. Committed to ongoing learning and professional development, capable of quickly adjusting to new challenges. Strongly interested in contributing to meaningful projects while flourishing within collaborative and growth-oriented environments.

### Skills

C++, Java, Python, HTML, CSS, JavaScript, Core SQL, MERN Stack

### Experience

#### Python Intern — Ramraj Technology Solutions Pvt. Ltd.

2024

Bhopal, India

- Worked on Python fundamentals, backend logic, debugging and script optimization.
- Applied coding standards, version control and documentation practices.

### Education

#### Bachelor of Technology in Computer Science & Engineering

Graduated: 2027

Technocrats Institute of Technology, Bhopal (RGPV University)

CGPA: 7.8 / 10

#### Senior Secondary Education (12th)

Completed: 2023

Mahanth Ramrup Goswami College, Bettiah (BSEB Board)

Percentage: 69.4%

### Projects

#### Real Estate Platform | MERN Stack

- Developed a full-featured property listing platform with secure authentication, advanced search filters, and a responsive UI to serve both buyers and sellers.
- Engineered for high performance and scalability by optimizing MongoDB queries, integrating Cloudinary for image management, and deploying on Vercel.

#### Smart Attendance Management System | Java Swing, JDBC, SQL, OOP

- Developed a secure Java Swing desktop application for automated attendance tracking using QR code and photo verification to ensure accurate user identification.
- Engineered a reliable and modular system by applying OOP principles and JDBC with robust exception handling for stable database connectivity and maintainable code.

#### TIT Developer Community Website | React, Tailwind CSS, TypeScript, Email JS

- Developed a hackathon project website with mentor profiles, image galleries, Hall of Fame, contact form, and event modules.
- Enhanced collaboration and engagement among students and mentors.

### Achievements, Certifications & Languages

Community Member in Technocrats Institute of Technology; attended tech fests, contest and Capgemini Brand Quest.

**Coding Practice:** Attended 6+ hackathons and cracked 800+ coding challenges on CodeChef and LeetCode.

Consistently solved competitive programming challenges on CodeChef for 50 consecutive days.

**Certifications:** NPTEL-Machine Learning, cloud Computing, Udemy-Web Development, Infosys-java and 3X IBM Certificate.

**Languages:** English and Hindi.

### Volunteering

#### Developer Community, TDC

2024 – Present

Technocrats Institute of Technology (Excellence), Bhopal

- Volunteer lead developer building 6+ projects for student collaboration and mentorship.
- Created interactive platforms fostering innovation and delivering lasting community value.
